

FARMER CO-OPS PROVIDING FOR

NORTH DAKOTA

Farmer co-ops in North Dakota and around the country give individual farmers the opportunity to truly participate in the agricultural and food system, all the way from farm to retail.

Farmer co-ops are taxed differently than other types of companies. Section 199A was passed to put co-ops and small businesses on even footing with big corporations. It has been a success and was critical in seeing farmer co-ops and their members thrive through a pandemic, unrest around the globe, and the highest inflation in a generation. Congress should stand up for agriculture and extend this important tax provision.

FARMER CO-OPS PROVIDING FOR

NORTH DAKOTA

STATE SUCCESS STORIES

“The tax savings from Section 199A(g), have allowed me to reinvest that money into improving my farm. Farmers have significant expenses, and this federal tax deduction helps decrease my tax bill so I can continue reinvesting in my operation. Any time you can put money back in the pockets of our agricultural producers is great for the local economy. When farmers spend money, it grows in the community. Section 199A(g) is a great way to get money into our rural communities.”

Scott Baumiller

Hazelon, North Dakota

“Since 2004, Agtegra Cooperative has passed through millions of dollars in federal tax savings to its member-owners, in addition to utilizing tax savings from Section 199A(g) to reinvest and improve facilities across its trade territory in North Dakota and South Dakota. Because of Section 199A(g), Agtegra has been able to reinvest \$40 million over the last ten years back into its facilities across its rural geography. One example includes rebuilding the agronomy warehouse at our facility in Oakes, North Dakota, in 2023.”
